About MI School Data

MI School Data is the State of Michigan's official source for pre-K, K-12, postsecondary and workforce data to help residents, educators and policymakers make informed decisions to improve student success.

The site offers multiple levels and views for statewide, intermediate school district, district, school and college level information. Data are presented in graphs, charts, trend lines and downloadable spreadsheets to support meaningful evaluation and decision making.

Dashboards & Education Focus Areas

The Dashboards and Education Focus Areas represent analyses and groupings of data meant to tell a story on a specific topic.

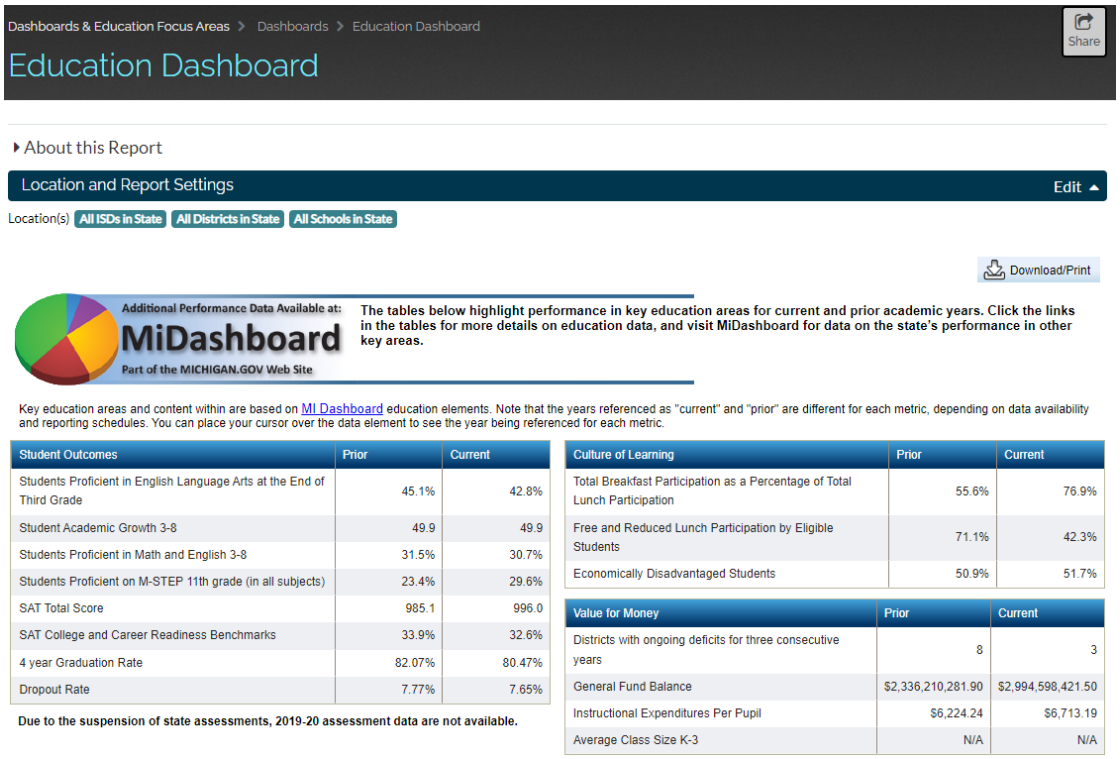
Dashboards

Dashboards are generally groupings of data and data visualizations to tell the story and let the reader interpret the story from the data displayed.

Education Dashboard

The Education Dashboard provides a quick overview of data and information about Michigan's public schools, districts, and regional education agencies. This dashboard makes it easy for the public to find information about schools. Metrics can be used to see how an individual school, district, ISD, or the State of Michigan as a whole is performing.

Data Updates	Demographics Available	Years Available	Secure Permissions
Metrics on the dashboard are updated at different times throughout the year as data become available	• Economically Disadvantaged	Most recent 2 years	None



*This report is only available to logged in secure users with appropriate access.

District Best Practices Dashboard

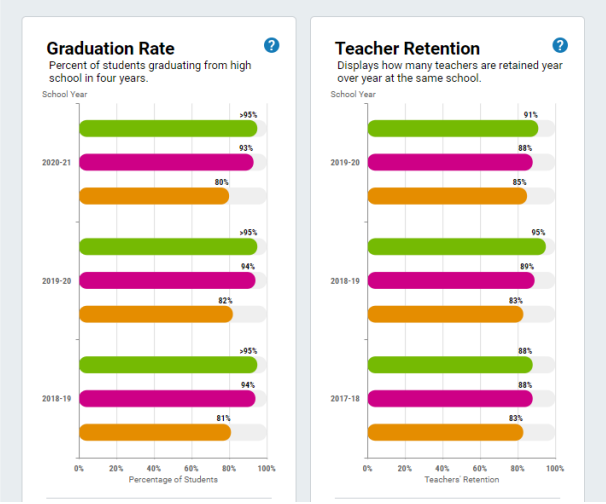
The District Best Practices report helps to show how Michigan K-12 school districts are performing. The report provides three years of data on student proficiency on state assessments, graduation and dropout rates, average K-3 class sizes, general fund balance and per-pupil expenditures and salary data for district superintendents, principals and teachers.

Data Updates	Demographics Available	Years Available	Secure Permissions
Metrics on the dashboard are updated at different times throughout the year as data become available	• N/A	Most recent 3 years	None

Parent Dashboard

The Parent Dashboard allows Michigan parents to learn about the quality of their children's schools by comparing attendance rates, assessment scores, student-to-staff ratios, and more. Parents can use Dashboard data to help make informed decisions and partner with their school to help their children reach success.

Data Updates	Demographics Available	Years Available	Secure Permissions
Metrics on the dashboard are updated at different times throughout the year as data become available	• Economically Disadvantaged • English Learners • Race/Ethnicity • Students with Disabilities	Most recent 3 years	None



*This report is only available to logged in secure users with appropriate access.

Our Schools at a Glance

The Our Schools at a Glance dashboard displays operational and academic data for all the school districts within a selected region, like a legislative district. For legislators, the report provides key indicators for all school districts, including charter schools, within their legislative districts. Selecting an individual school district shows a profile of key district-level metrics. The report also gives families and educators new ways to see how schools in their city or county region are performing.

Data Updates	Demographics Available	Years Available	Secure Permissions
Metrics on the dashboard are updated at different times throughout the year as data become available	• Economically Disadvantaged • Race/Ethnicity • Students with Disabilities	Current year	None

Extended COVID-19 Learning Plan Dashboard (No Longer Updated)

COVID-19 affected how districts provided instruction to their students. As schools started back up in the fall of 2020, districts developed plans to deliver instruction either in-person, remotely or through a hybrid approach. Districts communicated their plans to the State of Michigan through a monthly survey, the results of which are summarized on the Extended COVID-19 Learning Plan Dashboard.

Data Updates	Demographics Available	Years Available	Secure Permissions
No longer Updated	• N/A	2020-21	None

Education Focus Areas

Education Focus Areas are similar to dashboards in that they contain groupings of related data and data visualizations to tell a story, but EFAs also include more narrative to try and help the reader interpret what they are seeing in the data. Pointing out highlights and specific trends, outliers, and methodologies for better understanding what the data are saying.

*This report is only available to logged in secure users with appropriate access.

Postsecondary: Progress Toward Sixty by 30

In 2019, Gov. Whitmer set a goal to increase the percentage of Michigan adults with postsecondary degrees or certificates to 60% by the year 2030. In support of this initiative, new Postsecondary Attainment: Progress Toward Sixty by 30 Education Focus Area has been added to MI School Data. This report combines data from the Lumina Foundation, National Student Clearinghouse, and CEPI to explore postsecondary enrollment, persistence, and completion of Michigan students and track progress toward this goal.

School / District Accountability

The Michigan Department of Education and the Center for Educational Performance and Information have developed a series of dashboards and reports showing performance and effectiveness for Michigan schools and districts. Each of these tools assesses entities for different perspectives and purposes. Together, the suite of tools creates a larger overall picture of an entity's performance and effectiveness.
